Experience

Cognizant Technology Solutions (CTS) — **Chennai, India**
Programmer Analyst Trainee — *July 2025 – Present*

Led a 5-member team developing and modernizing a full-stack web platform while integrating DevOps practices.

- Developed Smart Hotel Management System (Angular + .NET + SQL Server).
- Performed primary pull request reviews and maintained the remote Git repository.
- Containerized the application using Docker and implemented Github Actions-based CI/CD pipeline.
- Integrated Prometheus & Grafana for live monitoring and ELK Stack for log management.

Bommaku Constructions — **Hyderabad, India**
Tech Consultant (Intern) — *Jan 2025 – June 2025*

Supported the company's digital transformation and modernization through web, cloud, and visualization solutions.

- Optimized website performance and provided UI/UX enhancement suggestions.
- Designed Unreal Engine 5 architectural visualization for construction projects.
- Guided the management team on adopting cloud technologies for operational efficiency.

Projects

Minecraft Server Hosting Platform
Cloud DevOps Live Project

A web-based platform for hosting and managing Minecraft servers using AWS EC2 and Lambda.

- Developed Next.js application with a full serverless backend architecture.
- Automated backend workflows via AWS Lambda, IAM, DynamoDB, and Cognito for authentication.
- Implemented CloudWatch dashboards for instance uptime and cost monitoring.
